

LAASTRAS

Establishing a unified and certain financial system.

Email: onkezabahizi@gmail.com

Website: <https://mwambaro.github.io>

PROBLEM

Fragmented economy where one has to own multiple e-cards and report to a financially unsatisfying job.

SOLUTION

Laastras establishes a **unified and certain financial system**, that leverages **AI and Digital Public Infrastructure (DPI)**, through which **one ecard and one job** unlock access to everything one needs to live with dignity, within a social order called “Leadership as a Service (**LaaS**)” operationalized through **Homocracy** – “Governance by Equals”.

PLATFORM ECOSYSTEM

Four platforms combine to power equality-centered trade and resources distribution.

FOUNDER STORY

“I started working on LaaS/Homocracy philosophy after my partner was fired from University, back in 2013, without her degree, due to political, cultural, and religious misunderstanding. I reasoned that solving the governance issue would solve the livelihood, freedom, economic fragmentation problems. I officially started designing the philosophy in October 2014, that is, 12 years ago, and I have been obsessed with the inequality, freedom, capitalism disorder matters ever since.”

TRACTION

We have a **tested prototype** ready to be launched. It is **Jobperon**, an AI-powered job search engine that makes **job search easy and natural**.

Prototype: <https://youtu.be/Z-7LEonS068?si=N5Le01cbxJTWAcrp>

BUSINESS MODEL

- ✓ Jobperon: Employer and Job Seeker Subscriptions.
- ✓ Chaperon: Percentage of salary upon job placement.
- ✓ GetClientele: A percentage of profits per client routed and market analytics data fees.
- ✓ eCard Wireless: data hosting and transaction fees.
- ✓ AORI: Advertising and community engagement opportunities

MILESTONES AND TIMELINE

-  Q3 2026–Q3 2027: Product Development (Jobperon & GetClientele)
-  Q4 2027: Market Entry
-  Q4 2028: Service 100,000 individuals and companies
-  Q4 2029: Product Scale and Improvement
-  Q4 2030: Build Chaperon and Integrate it into Jobperon
-  Q4 2031: Introduce eCard Wireless to governments and initiate AORI

MARKET ANALYSIS

-  **Target Market:** Job seekers, employers, vendors, shoppers, government officials.
-  **Focus:** Global workforce.
-  **Market Size:**
 - Total Available Market (TAM): \$5Trillion
 - Serviceable Available Market (SAM): \$3Trillion
 - Serviceable Obtainable Market (SOM): \$1Trillion

TAM

SAM

SOM

COMPETITOR ANALYSIS

Competitor	Their Flaws	Our Advantage
Google and Bing	No job search specialization. Haystack database.	Job search specialty
LinkedIn (and the like)	Costly and restrictive; static profile	Cheap and handy, no static profile.
WeWorkRemotely (and the like)	Limited search capability and No AI support in search.	AI-powered search capability
Amazon (and the like)	Online orders (8%)	Offline foot traffic (92%)
HubSpot (and the like)	Costly and less accessible	Cheap and handy
Google Maps (and the like)	No indoor mapping	Indoor/Outdoor mapping

MARKETING & SALES STRATEGY

- Channels: Social media, flyers, radio, TV, outreach.
- 1-month free commission.
- Afterwards: Affordable monthly payment for regular users and for employers.
- Community events

FINANCIAL PLAN

- **Pricing Model:**

- Job board and other ads: \$100/month per employer (company) for all available jobs. \$100/month per ads item; Job search: \$5/month per user.
- Job coaching and placement: \$20/month per user; Routing: \$1/day per vendor per client; CRM/RCM/Stock/Analytics: \$1/day per vendor.

- **Revenue Projections:**

- ✓ Q4 2027: **\$1,6M/mo** (1000 vendors, 1000 clients, 100,000 users; 1000 companies)
- ✓ 2028: **\$9M/mo** (5000 vendors, 10,000 clients; 200,000 users; 5,000 companies)
- ✓ 2029: **\$17M/mo** (10,000 vendors, 20,000 clients; 500,000 users; 10,000 companies)
- ✓ 2030: **\$40M/mo** (50,000 vendors, 150,000 clients; 1,000,000 users; 15,000 companies)
- ✓ 2031: **\$90M/mo** (100,000 vendors, 300,000 clients; 2,000,000 users, 30,000 companies)

- **P&L Status:** Pre-revenue.

OPERATIONS PLAN

- ⚙ Continual App scaling, global marketing campaigns, integration of payment methods, customer support, user and vendor education, database maintenance, and research in fast and efficient AI search algorithms.

GROWTH STRATEGY

-  Add multilingual support (French, Arabic, Chinese, etc.).
-  Add advertising modules for image/video.
-  Absorb job ads platforms by featuring their jobs in the search engine.
-  Start partnerships with governments, market administrators, banks, payment platforms, and telecom companies

RISKS AND MITIGATION

- ⚠ **Slow adoption** → Increase marketing, education & outreach.
- ⚠ **Few qualified engineers** → Promise of competitive salary.
- ⚠ **Payment diversity** → Add more payment methods + eCard.
- ⚠ **GDPR compliance** → Ensure user consent + government partnerships.
- ⚠ **Competition constraints** → Early market entry and revenue diversification such as Chaperon program.
- ⚠ **Device safety concerns** → Mobile safety coaching.
- ⚠ **Loyalty to specific vendors** → Promote CRM/Stock Management benefits, larger network.
- ⚠ **Mobile vendors** → Real-time geolocation.
- ⚠ **Resource constraints** → Use vendor and foot traffic to update maps.
